Filing a DMCA Takedown Notification

To be effective under the DMCA, a notification of claimed infringement must include all of the following:

- the signature of the copyright owner or an authorized agent;
- identification of the copyrighted work claimed to have been infringed, or, if multiple works are on a single site, a representative list of such works;
- identification of the infringing material or activity (or the reference or link to such material) and information reasonably sufficient to permit the OSP to locate the material (or the reference or link);

- contact information for the copyright owner or authorized agent;
- a statement that the person sending the notice has a good faith belief that use of the material in the manner complained of is not authorized by the copyright owner, its agent, or the law; and
- a statement that the information in the notice is accurate, and under penalty of perjury, that the person sending the notice is authorized to act on behalf of the copyright owner.

For example, please see this [Sample Notice](#).

Upon receipt of a valid written notification, Hamilton will respond expeditiously as required by applicable law, which may include removing or disabling access to the material, notifying the affected subscriber, and following the procedures set forth in the DMCA.

You should be aware that complainants who make false claims or misrepresentations concerning copyright infringement may be liable for damages under the DMCA.

Filing a Counter-Notification

If you believe that material you posted or made available was removed or disabled as a result of a mistake or misidentification, you may submit a counter-notification to our Designated DMCA Agent.

A valid counter-notification must be a written communication that includes all of the following elements:

- Your physical or electronic signature;
- Identification of the material that has been removed or to which access has been disabled and the location at which the material appeared before it was removed or access to it was disabled;
- A statement under penalty of perjury that you have a good faith belief that the material was removed or disabled as a result of a mistake or misidentification; and
- Your name, address, and telephone number, and a statement that you consent to the jurisdiction of the federal district court for the judicial district in which the address is located, or if your address is outside of the U.S., for any judicial district in which the service provider may be found, and that you will accept service of process from the complainant or an agent of such person.

For example, please see this [Sample Counter-Notice](#).

Upon receipt of a valid counter-notification, Hamilton will:

- Forward the counter-notification to the original complainant; and
- Restore the removed or disabled material within ten (10) to fourteen (14) business days, unless we receive notice that the complainant has filed a court action seeking to restrain the allegedly infringing activity.

You should be aware that substantial penalties under U.S. law apply for a false counter-notice filed in response to a notice of copyright infringement.

Repeat Infringer Policy

In accordance with 17 U.S.C. § 512(i), Hamilton has adopted and reasonably implements a policy for terminating, in appropriate circumstances, subscribers and account holders who are repeat infringers.

A “repeat infringer” may include a subscriber who receives multiple infringement notices over a short or continuous period, or repeated notices over a longer period, as determined by Hamilton in its reasonable discretion.

Subscribers who meet these criteria may be subject to warnings, service restrictions, suspension, or termination.

Monitoring and Enforcement

In addition to the DMCA policies described herein, Hamilton also has no obligation to monitor its Services but may do so and disclose information regarding the use of the Services for any reason if Hamilton, in its sole discretion, believes that it is reasonable to do so, including, without limitation, to (i) satisfy laws, regulations, or governmental or legal requests, (ii) operate the Services properly, or (iii) protect itself and its Customers and users.
